BSPT Sob Consulta.

- **Conexão Rápida:** Simplesmente empurre o tubo, sem usar ferramentas. Permite economia de até 75% em relação ao tempo de montagem de conexões tipo compressão standard.
- **Desconexão Rápida:** Segure o colar com dois dedos e puxe o tubo, sem usar ferramentas.
- **Reutilizável:** Pode ser conectado e desconectado inúmeras vezes.
- **Design para Fluxo Máximo:** Proporciona uma área de fluxo até 60% maior em relação as conexões convencionais que usam insert para tubo.
- **Vedação Total:** Evita vazamentos já a partir da introdução do tubo na conexão
- **Versatilidade:** O-rings padrão são feitos de BUNA-N (Disponíveis também em outros tipos de material)
- **Firme Retenção do Tubo:** Quanto mais o tubo é tracionado, maior sua fixação na conexão
- **Conjunto Único de Componentes:** Sem peças soltas. Corpo e pinça em latão
- **Linha Completa:** De modelos e tamanhos.
- **Construção em Latão:** Cotovelos e tees são confeccionados em latão forjado CA377. Escolha entre os giratórios (permitem o rosqueamento de modo a ficar sempre na melhor posição para ligação) ou convencionais, mais econômicos. Conectores e Uniões são confeccionados em latão estrudado CLA 360
